SUMMARY THESIS:
[INTELLIGENCE FACTOR OF EVOLUTION]

THE CONCEPT OF EVOLUTION BY DARWIN, I PRESUME, IS BUILT UPON THE IDEA (S) OF NATURAL SELECTION. YET AFTER HAVING DISCOVERED THAT THERE IS MATHMATICAL PATTERN TO THE TWO PRIME PRINCIPLES OF EVOLUTION [MATTER & FORCE], I AM LIKewise ABLE TO PRODUCE ENOUGH EVIDENCE TO PROVE THAT THERE IS AN INTELLIGENCE FACTOR WITHIN NATURE WHICH IS RESPONSIBLE FOR THE DEVELOPEMENT OF LIFE AS WE KNOW IT TO BE.

PRE INTRODUCTION

THIS THESIS IS CALLED [THE GENESIS PROJECT], WHERE I BEGIN WITH THE SIMPLE INTRODUCTION OF CERTAIN PHILOSOPHICAL CONCEPTS WHICH SUPPORT THE [HOW & WHY ?] TO MY REASONING.

I THEN REVEAL A NEW MATHMATICAL CONCEPT WHICH I HAVE CREATED CALLED [ELEMENTAL MECHANICS], THAT EXPLAINS THE PATTERNS WHICH FORCE AND MATTER ARE DESIGNED TO WORK AMONG THE ELEMENTS OF THE WORLD.

FURTHERMORE; I REVEALE A NEW THEORY ON THE SPECTRUM OF LIGHT, WHICH WILL SUPPORT MY THEORY ON THE INTELLIGENCE FACTOR AND THE LAWS INWHICH IT IS GOVERNED.

THIS CONCEPT HOWEVER; INFLUENCED ANOTHER THEORY WHICH I CALL [MOLECULAR COMPRESSION]. IN THAT THESIS, I AM ABLE TO PROVE THAT MOLECULES ARE NATURAL TEMPLATES WHICH RECORD THE INFORMATION OF LIGHT.

THIS CONCEPT IS HOW I WAS ABLE TO MANUFACTURE YET ANOTHER THEORY CALLED [LIQUID ENERGY FUSION], A MOLECULAR HYBRID FUSION WHICH I HAVE SUPPORTED WITH EQUATIONS BASED ON THE NEW DESIGN OF MY ELEMENTAL MECHANICS CHART.

I CONTINUE WITH MY THEORETICAL CONCEPT BY USING THE THEORY OF VALENCE BOND STRUCTURES AND QUANTUM MECHANICAL RESONANCE APPLICATIONS WRITTEN BY DR. WERNER HEISENBURG.

THEREFORE; HAVING DESIGNED THESE SCIENTIFIC ARGUEMENTS, I WAS ABLE TO DEVELOPE A NEW D.N.A. MODEL THEORY WHICH SUPPORTS MY THEORY ON THE INTELLIGENCE FACTOR OF EVOLUTION.

SCIENTIFIC PROGRESS IS LIKEN TO A CONFLUENCE OF TRIBUTARIES TO FORM A RIVER, ACCORDING TO [WILLIAM WHEWELL 1794-1866] , A PROFESSOR OF PHILOSOPHY WHO WAS KNOWN FOR THE STUDY OF THE MECHANICS OF THE WAVES. WHEREAS; IT IS KNOWN TO US THAT SUCCESSFUL THEORIES WILL COLLIGATE OR BIND TOGETHER EXPERIMENTAL LAWS AS IS TAUGHT BY [PIERRE DUHEM 1861-1916] IN HIS BOOK [AIM AND STRUCTURE OF PHYSICAL THEORY PG 32 1962]. NOW, PIERRE DUHEM CONTRIBUTES TO THE CONCEPT OF FLUID MECHANICS AND THE HISTORY OF SCIENCES... I FELT COMPELLED TO ALSO BELIEVE THAT MECHANICS IN ITS SELF COULD ONLY BE GOVERNED BY AN INTELLIGENT DESIGN, AND THAT THE ANSWER WOULD NOT BE FOUND IN ANY ONE THEORETICAL CONCEPT OR LAW, BUT THROUGH A SERIES OF THEM.

NOW, PREVIOUS ESTABLISHED LAWS ARE JUDGED MORE ADEQUATE AND FAMILIAR THAN LAWS DEDUCED FROM THEORIES, WHICH IS CONTRAST TO THE METHODS OF HYPOTHESIS AND DICTIONARIES WHICH WAS PUBLISHED BY [NORMAN R. CAMPELL 1880-1949], IN HIS BOOK CALLED [PHYSICS, THE ELEMENTS 1919].

NOW AGAIN, ISAAC NEWTON [1642-1727], FORMULATED CALCULUS TO CHART THE MEANS DISTANCE OF THE STARS, YET THE PHYSICS ITS SELF DO NOT FORM THE LOGICAL STRUCTURES OF A THEORY ABOUT THE HEAVENLY BODIES, BUT IT DOES HELP TO DEFINE THE MECHANICS BY WHICH THEY ARE GOVERNED.

		T1				
		T2				
HYPOTHESIS	---	T3	---	DICTIONARIES	---	THEORIES

[WHERE T1, T2, T3, ARE AXIOMS]

IN THE ABOVE METHOD IS A STAGE BY WHICH THE ELEMENTAL MECHANICS CONCEPT WAS DEVELOPED BY MYSELF, SUPPORTED IN PART BY THE METHODS TAUGHT BY [CAMPBELLS., FOUNDATION OF SCIENCE PG 122 1957].

MY HYPOTHESIS WAS THE IDEA THAT INTELLIGENCE EXISTED IN THE FORM OF MECHANICS. NEXT, I APPLIED PATTERNS OF PHYSICS FORMULAS THAT ACTED AS AXIOMS TO SUPPORT THE CONCLUSION. THEN I DEFINED THE AXIOMS AS BEING EITHER A NEGITIVE OR POSITIVE CONSTRUCTION WHICH WHEN THE PATTERNS WERE PERFORMED, GENERATED A NUMBER OF LAWS PRODUCED THROUGH THE THEORY DEVELOPED FROM THIS METHOD.

NOW, I HAVE CREATED A CHART WHICH DESCRIBES THE MECHANICS OF FORCE. IT IS ALGORYTHMIC IN NATURE, WITH EACH EQUATION PRODUCED FROM IT BEING LABELED [JOULE CALCULATED UNIT], OR J.C.U. (SEE CHART BELOW).

	(A) ELEMENT	(B) FORCE	(C) MATTER
1.	WIND	ENERGY	AREA
2.	WATER	RESISTANCE	MASS
3.	EARTH	PRESSURE	DENSITY
4.	FIRE	COMBUSTION	PARTICAL

THE FIRST PRINCIPLE ELEMENT, LABELED (A), HAS FOUR DEFINITIVES
 1. WIND 2. WATER 3. EARTH 4. FIRE.

THE SECOND PRINCIPLE FORCE LABELED (B), HAS FOUR DEFINITIVES
 1. ENERGY 2. RESISTANCE 3. PRESSURE 4. COMBUSTION

THE THIRD PRINCIPLE MATTER LABELED (C), HAS FOUR DEFINITIVES
 1. AREA 2. MASS 3. DENSITY 4. PARTICAL

I WILL EXPLAIN TO YOU HOW TO USE THIS CHART, THROUGH DEFINING ITS PURPOSE.

THERE ARE TWO FORCES WHICH INTERACT WITH ONE ANOTHER [POSITIVE AND NEGITIVE]. WHICH THEN LEADS ME TO SUGGEST THAT THERE WILL LIKEWISE BE TWO WAYS INWHICH; TO INTERPRETE THE NATURE OF FORCE, WHICH METHODS I HAVE ALSO NAMED [NEGITIVE AND POSITIVE CONSTRUCTION]...

THE NEGITIVE CONSTRUCTION, WOULD BE AN EQUATION THAT WHEN DEFINING THE PRINCIPLES OF FORCE, DIRECT THE MECHANICS OF ITS DEFINED ABILITY, TO DIVIDE OR SPLIT THE ATOM.

SO THE POSITIVE CONSTRUCTION, WOULD DIRECT THE MECHANICS OF FORCE TO COMPRESS THE MOLECULAR BODY. INORDER TO PRODUCE ENRGY, FOR EXAMPLE:

EINSTIENS EQUATION.... $E=MC^2$ [ENERGY EQUALS MASS COMBUSTION SQUARE]... IS DESIGNED TO SPLIT THE ATOM INORDER TO PRODUCE ENERGY.

NOW LOOKING AT THE CHART, THE PATTERN WILL SHOW THAT WHILE [ENERGY] AND [COMBUSTION] ARE USED, THE TWO PRINCIPLES OF FORCE ARE DIVIDED, WHERE [MASS] IS ONLY BRIDGING THE PRINCIPLE [ENERGY].., SO THIS WOULD MAKE THE [J.C.U.], A NEGITIVE CONSTRUCTION.

NEXT: IF I WERE TO CREATE A POSITIVE CONSTRUCTION TO INDUCE MOLECULAR COMPRESSION, THEN I WOULD BRIDGE [ENERGY AND COMBUSTION] WITH TWO DEFINITIVES... WHERE IN THIS CASE I WILL SUGGEST [MASS AND DENSITY]...

1. $E = MDC^2$: ENERGY WILL BE EQUIVALENT TO THE WIEGHT OF DENSITY AND ITS FORCE OF MOTION SQUARE.

NOTE: (WHERE IN THE PLACE OF COMBUSTION, I HAVE USED MOTION.)

.....

NOW AGAIN, I CAN ALSO CREATE A POSITIVE CONSTRUCTION BY SIMPLY CONNECTING ALL FOUR PRINCIPLES OF FORCE TOGETHER AS WELL, WHILE USING ONLY A FEW DEFINITIVES OF EITHER ELEMENT OR MATTER.

SO WITH THIS CHART, IF I DO NOT KNOW OF THE UNDERLYING PATTERN HIDDEN WITHIN THE PHENOMENA OF A NEGITIVE CONSTRUCTION, ALL I NEED TO DO IS REVERSE ENGINEER THE EQUATION BY THIS METHOD.

TO SHOW THAT THE MOLECULAR BODY CAN ACTUALLY BE COMPRESSED, I HAVE TO DESCRIBE IT AS A TEMPLATE OF INFORMATION. WHEREAS; I MUST THEN INDUCE THIS HYPOTHESIS WHICH FOLLOWS IN THE DESCRIPTION OF THE MECHANICS OF THE SPECTRUM OF LIGHT.

.....

A MOLECULE MUST RETAIN THE MEMORY OF LIFE, INORDER TO PRODUCE ENERGY; WHEREIN THE SUN THEN MANAGES THE MOLECULAR PRINCILPLE THROUGH THE LIFE GIVING FORCES OF [LIGHT]...WHICH SUGGESTS THAT THE MOLECULE WILL BE CONSTRUCTED IN SUCH A WAY AS TO CARRY WITHIN ITS SELF A TEMPLATE., (LIKE A COMPACT DISK WHICH RETAINS INFORMATION)...

HOW DOES LIGHT POSSIBLY MANAGE THE MOLECULAR BODY ? AND WHAT ARE THE BOUNDARIES AND LIMITATIONS OF ITS PERFORMANCES ?
LIGHT FROM THE SUN BEGINS AS PURE ENERGY. YET WHEN IT REACHES THE VEIL OF OUR ATMOSPHERE, IT COMES INTO CONTACT WITH THE ELECTROMAGNETIC AND ION ATMOSPHERE.

THEREFORE, THE PHOTON ENTITY WILL REACT TO THIS PHENOMENA BY COMBUSTING WITHIN OUR ATMOSPHERE.

NOW, ENERGY CAN NOT SIMPLY DIE; SO IT MUST RECYCLE INTO THE GREATER OR LESSER VALUE. THEREFORE; WHEN THE PHOTONS BEGIN TO COMBUST, THE RECYCLED ENERGY WILL BECOME THE VACUUM CHAMBER THAT LIGHT TRAVELS WITHIN.

SO, THE COMBUSTION OF THESE PHOTONS WILL LIKEWISE ACCELERATE AT DIFFERENT RATES, WHICH WOULD ACCOUNT FOR THE SEVEN COLOURS OF THE SPECTRUM.

SINCE SUNLIGHT HAS A VARIABLE OF RECORDED FREQUENCIES THAT WE KNOW OF ALREADY, THIS WOULD SUGGEST THAT THE COMBUSTION OF THESE PHOTONS WOULD CREATE AN ECHO WITHIN THE CHAMBER, WHICH LIKEWISE SUGGESTS THAT THERE ARE SEVEN DIFFERENT VARIABLES OF FREQUENCY THAT ARE EACH TO THEIR OWN, IN RELATIONSHIP TO THE COLOURS OF THE SPECTRUM.

THIS WOULD MEAN THEN HOWEVER; THAT AS THE MOLECULES WILL ABSORB THE INFORMATION FROM THE SUNLIGHT, IT LIKEWISE ABSORBS THE FREQUENCIES (EACH MOLECULAR TYPE ABSORBING DIFFERENT AMOUNTS TO ACCOUNT FOR THEIR PURPOSE), WHICH THEN LEADS ONE TO CONCLUDE THAT, ONCE A MOLECULE HAS ABSORBED THE INFORMATION, IT WILL BEGIN TO VIBRATE (RESINATE), ACCORDING TO THAT FREQUENCY WHICH WOULD ALSO ACCOUNT FOR THE DEFINITION BY WHICH MOLECULES PRODUCE FORCE, SIMPLY SAYING, THAT THE EMISSIONS OF RESINATING FREQUENCIES PRODUCES THE NATURAL FORCES WE UNDERSTAND.

THIS MEANS THEN, THAT MOLECULES ARE CAPABLE OF INCREASING THEIR INFORMATION THROUGH THE PRODUCTION OF COMPRESSION IN THE SAME WAY AS A 36 TRACT RECORDER COMPRESSES INFORMATION ONTO A DISK.

NOW, LIGHT IN ITS NATURAL CHAMBER WOULD HAVE TO APPEAR AS A KALIDOSCOPE IMAGE, BECAUSE OF THE RATE DIFFERENTIAL OF THE PHOTONS THAT ARE CONTINUOUSLY COMBUSTING. WHICH THEN LEADS ME TO OBSERVE THE PRISM AS A MEANS BY WHICH TO FILTER THE IMAGES OF THE COLOURS OF THE SPECTRUM BY ANGLES WHEN THE LIGHT PASSES THROUGH IT.

NOW AGAIN, WHEN SUNLIGHT PASSES OVER THE MOLECULAR BODY, THE MOLECULES WILL ENTER THE VACUUM CHAMBER. WHEN THIS HAPPENS HOWEVER; THE RESINATING MOLECULE WILL INTERACT WITH THE COLOUR VARIABLES IN THEIR ACTIVE STATE, WHICH LEADS TO THE IMAGES THAT WE SEE, BECAUSE THE RESINATING FACTOR WILL CAUSE AN ECHO WITHIN THE CHAMBER DIFFERENT FROM THAT OF THE ALTERNATE PHOTON IMAGES PRODUCED..

THE COLOUR

IT WOULD SEEM THAT ONE COULD COLOUR CODE THE MOLECULAR ENCRYPTION, WHICH IS NOT SO FAR AN ABSTRACT IDEA.

RED IS ASSOCIATED TO (HEAT), THEREFORE; I WILL COMPARE THIS COLOUR TO THE ELEMENT (FIRE), AND ALSO TO THE (FASTER) RATE, BECAUSE WHEN HEAT INTERACTS WITH WATER, THE WATER MOLECULES WILL INTENSIFY IN RATE. SO OBSERVING THE RAINBOW, AND THE FIRST COLOUR WHICH IS SCARLET, I ASSOCIATE THIS END OF THE SPECTRUM AS TO BEING..... THE FASTER RATE,.. AND HOT END OF THE SPECTRUM.

NOW, THE SUNLIGHT MUST BE ABLE TO READ THE MOLECULAR BODY AS IT PASSES OVER AT THE SAME SPEED, THEREFORE; SINCE SOME ASPECTS OF THE MOLECULAR BODY TAKE LONGER TO RECORD, THERE MUST BE FASTER RATES THAN OTHERS TO INDUCE THIS ANOMOLY. WHICH MEANS THAT (SCARLET), WOULD COVER THE ASPECT OF VOLUME).

SO IF SUCH WERE THE CASE, THEN THERE WOULD BE SEVEN ASPECTS FROM WHICH TO REVEAL.

BY NATURAL OBSERVATION, THE SPECTRUM REMAINS AS A CONSTANT WHICH MEANS THAT IT MUST LIKEWISE BE JUSTLY BALANCED. THEREFORE; AS THERE IS THE HOT END OF THE SPECTRUM WITH THE FASTER RATE, THERE WOULD THEN BE THE COLD END OF THE SPECTRUM WITH THE SLOWER RATE.

SO VIOLET WOULD QUALIFY AS THE SLOW END OF THE SPECTRUM WITH THE SLOWEST RATE., MAKING ITS RESPONSIBILITY AS IN THE ASSOCIATION OF (AREA)

THESE PATTERNS DESCRIBED WILL ALSO BE CONTRAST IN POSITION TO THE CHART THAT WAS REVEALED IN THE PRIOR PAGE.

.....

- | | |
|---------------------------------|--------------------------------|
| 1. VIOLET - WIND - AREA | 5. YELLOW - LIGHTNING - ENERGY |
| 2. BLUE - WATER - MASS | 6. ORANGE - MAMMELS - FREQUNCY |
| 3. GRUE - SEA VEG. - RESISTANCE | 7. RED - FIRE - VOLUME |
| 4. GREEN - VEGETATION - DENSITY | |

.....

THEREFORE; THE MOLECULE WILL HAVE SEVEN TRACTS OF INFORMATION WITH EACH TRIBE OF MOLECULES, SUCH AS [HYDROGEN , OXYGEN , CARBON , NITROGEN , PHOSPHORUS , HELIUM ETC...], HAVING THEIR OWN PATTERN OF MEMORY WHICH SEPERATES THEIR IDENTITIES ONE FROM THE OTHER SPECIES.

THE CONCEPT OF MOLECULAR COMPRESSION TO PRODUCE A HYBRID ENERGY SOURCE, WOULD BE TO INICIATE A METHOD BY WHICH TO REMOVE THE MEMORY OF THE RED FREQUENCY FROM THE WATER MOLECULE, AND REPLACE IT WITH THE MEMORY OF THE YELLOW FREQUENCY WHICH CARRIES THE INFORMATION OF ENERGY.

THE PROCESS WILL BE SIMILAR TO COLD FUSION, WHEREAS; THE DESIGN WILL BE PRIMARILY FOCUSED ON NOT CREATING A DESTABLIZED COMPONANT THAT CAN NOT BE WORKED WITH.

NOW WITH ELECTRICITY, WATER IS A CONDUIT., BUT ONLY WHILE THE MEMORY OF RED FREQUENCY IS WITHIN THE WATER MOLECULES TEMPLATE. SO WHEN ERASING THE MEMORY OF RED FREQUENCY AND REPLACING IT WITH YELLOW MEMORY, THE ORIGINAL POSITION OF YELLOW FREQUENCY OF THE WATER MOLECULE WILL HAVE ADDED TO ITS FORMAT THE EQUIVALENT OF THE RED FREQUENCY MEMORY AS WELL TO KEEP THE MOLECULE FROM DESTABLIZING.

.....

THERE MUST BE A CONTAINED AREA OF WATER FOR THE PROCEEDURE. WHICH CAN WITHSTAND PRESSURE.

NEXT, A VIOLET SPECTRUM LASER POSITIVLY CHARGED WILL BE AIMED THROUGH THE WATERS MASS, AT A NEGITIVLY CHARGED RED SPECTRUM LASER., BOTH SET AT THE SAME FREQUENCY.

THIS IS TO BE FOLLOWED WITH A FIELD OF NEGITIVE AND POSITIVE CHARGED ELECTROMAGNETIC INFLUENCES.

WHEN THE TWO SPECTRUM LASER COLLIDE, IT WILL MOMENTARILY DIFFUSE THE MOLECULAR TEMPLATE., WHILE THE ELECTROMAGNETIC FIELD WILL MAINTAIN THE DIFFUSION.

THERE WILL THEN BE NEEDED A YELLOW SPECTRUM LASER FREQUENCY THAT IS SET AT THE APPROPRIATE LEVELS., WHICH MEANS THAT AS THE RED SPECTRUM FREQUENCY IS BEING PULLED AWAY FROM THE MOLECULAR TEMPLATE, THE YELLOW FREQUNCY WILL BE MORE POWERFUL THAN THE ELECTROMAGNETIC CURRENT, WHIVH WILL FORCE THW WATER MOLECULE TO ASSIMILATE INTO THE MEMORY OF YELLOW.

THIS WILL CREATE A MATTER - ANTI MATTER FIELD., BUT THE ANTI MATTER WILL DISSIPATE LEAVING ONLY THE POSITIVE - NUTRUEL - NEGITIVE MATTER ALLIGNMENT, WHEN THE HYBRID ENERGY FUEL SOURCE IS FILTERED OUT FROM THE PROCESS.

.....

NOW, WHEN OBSERVING THE EQUATION: $E = MC^2$., I SHOWED YOU HOW THE NERGY DEFINITIVE WAS DIVIDED FROM THE COMBUSTION DEFINITIVE, BUT USED THE MASS DEFINITIVE TO BRIDGE ITS PRORTY INORDER TO CREATE ENERGY.

NOW, WHEN I REVERSE EINSTEIN'S EQUATION; $E = MC^2$, THE FOLLOWING WILL EMERGE:

1. $C^2 = ME^3$ OR, VOLUME SQ. WILL EQUAL THE WEIGHT OF ENERGY.³

NOTE: I REPLACED THE TERM COMBUSTION WITH THE DEFINITIVE [VOLUME], WHERE THE EQUATION EXPLAINS THAT WHEN A MOLECULE IS COMPRESSED SQ. IT WILL BE EQUIVALENT TO THE WEIGHT OF ENERGY IT CAN PRODUCE.

NOW IF I WERE TO INCORPORATE THE SAME EQUATION, BUT USE THE DEFINITIVE WATER IN PLACE OF MASS, I WOULD FIND THE PRODUCT OF:

1. $E = C^3 H_2O$... OR, ENERGY WILL BE EQUIVALENT TO THE COMBUSTION PER CUBIC INCH OF WATER.

NOW, TO MAKE THIS EQUATION A POSITIVE CONSTRUCTION, I WOULD APPLY THE PRINCIPLE OF FORCE WITH ITS TWO DEFINITIVES [RESISTANCE AND PRESSURE] WHILE USING [AREA AND MASS], TO BRIDGE THE TERM.

2. $E = C^3 H_2O / RA \div MP^3$

WHICH THIS EQUATION THEN READS: ENERGY WILL BE EQUIVALENT TO THE COMBUSTION PER CUBIC INCH OF WATER WHEN THE AREA OF RESISTANCE IS DIVIDED BY THE WEIGHT OF PRESSURE PER CUBIC INCH...

.....

ALTHOUGH THERE IS MOLECULAR FORCE, AND ITS PRINCIPLE IS MANAGED BY THE SUN, THERE MUST BE A SECONDARY PRINCIPLE AUTHORITY AS IN CONTRAST TO THE MECHANICS OF VOLTAGE WHERE AMPERAGE IS APPLIED TO PROPELL ELECTRICITY GREATER DISTANCES.

TO PRODUCE THIS MODE OF FORCE, ONE MUST OBSERVE THE NATURAL SATELLITE, OR MOON, AND ITS' MECHANICS.

SO I ASSUME THE MECHANICS AS (9), TO THE PRODUCT OF (9V), WHERE (V), IS VOLTAGE.

THE MECHANICS WILL BE DEFINED AS: [TRANSMITTIVE FORCES].. WHERE THE LAW TO SUPPORT MY THEORY IS FOUND IN THE METHOD OF THE INDUCTION COIL, WHERE A LOWER MODE OF FORCE IS INCREASED BY A SECONDARY PRODUCTION OF FORCE.

WHEN THE MOON COMPLETES A FULL CIRCUIT AROUND THE PLANET,
IT SHOULD PRODUCE A LOWER MODE OF FORCE, WHERE THEN THE CLOUDS
PROPELLED BY THE WINDS, INDUCES THE SECONDARY MODE OF FORCE
THAT WILL CHARGE THE MOLECULAR INFRASTRUCTURE OF OUR PLANET.
NOW IN WEBERS LAW.,

" THE MAGNETIC FLUX IN LINKING A CIRCUIT IN ONE TURN PRODUCES
IN IT AN ELECTROMOTIVE FORCE OF ONE VOLT, AS IT IS UNIFORMLY
REDUCED TO ZERO IN UNDER A SECOND.."

I DISCOVERED THAT THE ROTATION OF OUR PLANET IN ITS CYCLE
HELPS NOT ONLY TO CREATE THE ELECTROMAGNETIC FIELD OR FORCE IN
OUR ATMOSPHERE, BUT THROUGH THE MEANS OF THE COHESIVE INDUCTION
THEORY OF THE MOON AND THE CLOUDS, THESE WORK IN UNISON TO HELP
DISTRIBUTE THE ENERGY IN A BALANCED MEASURE.

SO:

A. THE MECHANICS OF PRODUCING THE HYBRID ENERGY FUEL SOURCE,
WILL REQUIRE THAT THE WATER WITHIN THE CHAMBER BE SET TO
ROTATE IN A CYCLE AS TO CREATE CENTRIFIGAL FORCE, THAT THE
ELECTROMAGNETIC FIELDS BE PROPERLY DISBURSED THROUGHOUT THE
AREA OF MASS.. WHICH EQUATION READS:

1. $G^2 = EM..$ OR CENTRIFIGAL FORCE PER SQ. INCH WILL EQUAL THE
ENERGY OF MASS

NOW IN CONCLUSION., THIS MATHMATICAL ENTITY DOES NOT HAVE ANY
PRIVATE INTERPRETATION., BUT IS LEFT UP TO THE DEFINER., AS IT
THEN QUALIFIES ONLY AS A MEANS TO INTERPRETE THE INFRASTRUCTURE
OF THE MECHANICS OF FORCE..

" MATHMATICAL ENTITIES HAVE NO STABLE ESSENCE IN THE NATURE OF
THINGS, THEY DEPEND ON THE NOTION OF THE DEFINER.. WHENCE THE
SAME THING CAN BE EXPLAINED IN DIFFERENT WAYS.."

[IN THE WORKS OF GEORGE BERKELEY VOL 5 PG 50 1951].

NOW CONCERNING VALENCE BOND STRUCTURES AND RESONANCE THEORY, I BEGIN BY STATING THAT IT IS POSSIBLE TO FORM VALENCE BONDS WHICH ARE REASONABLE TO WORK WITH, SUCH AS THE ELEMENTS OF HYDROGEN, METHANE, ETHYLENE, ACETYLENE, AND CHLOROFORM.

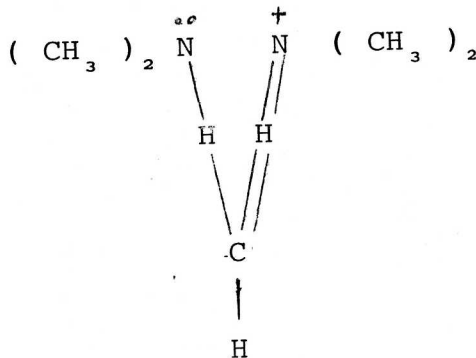

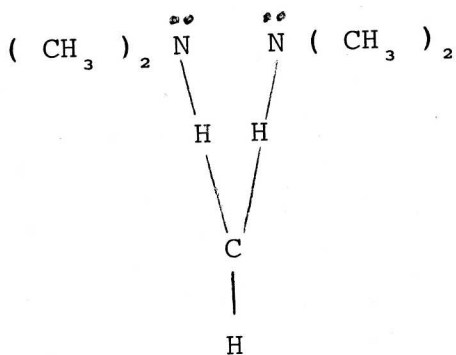

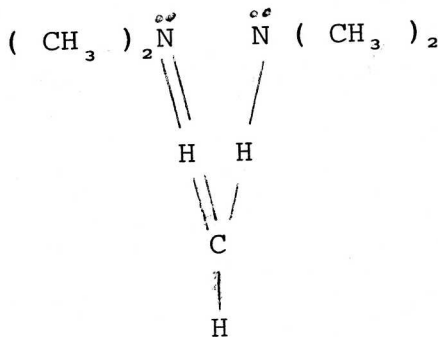

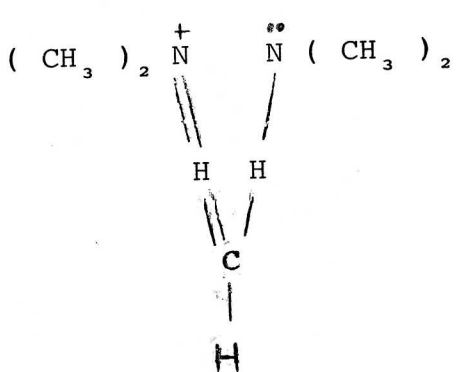

SOMETIMES HOWEVER; THE CHOICE CAN NOT BE MADE BETWEEN TWO OR MORE CONCEIVABLE STRUCTURES; WHICH IN OTHERWORDS, WHICH WOULD BE EXPECTED TO BE EQUALLY STABLE.

QUANTUM MECHANICAL RESONANCE PROVIDED THE SOLUTION FOR THIS PROBLEM.

NAMELY; THE ACTUAL NORMAL STATE OF SUCH A MOLECULE CAN BE DESCRIBED AS CORRESPONDING NOT TO ANY ONE OF THE ALTERNITIVE REASONABLE STRUCTURES, BUT WRATHERTO A COMBINATION OF THEM, THEIR INDIVIDUAL CONTRIBUTIONS BEING DETERMINED BY THEIR NATURE AND STABILITY.

THE MOLECULE IS THEN SAID TO RESINATE AMOUNG THE SEVERAL VALENCE BOND STRUCTURES, OR TO HAVE A STRUCTURE WHICH IS A RESONANCE HYBRIDOF THESE STRUCTURES.

THE MOLECULE IS STABLIZED BY THIS RESONANCE, ITS ENERGY BEING LESS THAN THE ENERGY WHICH WOULD BE EXPECTED FOR ANY OF THE STRUCTURES AMOUNG WHICH IT RESONATES.

THE IDEA (S) OF RESONANCE CAN BE INVOKED IN THE DISCUSSION OF THE COLOUR DYES, AND OTHER ORGANIC STRUCTURES [SUBSTANCES]. THE NORMAL STATE OF THE CATION OF MALACHITE GREEN, FOR EXAMPLE, INVOLVES RESONANCE AMONG ALL STRUCTURES INWHICH, THE POSITIVE CHARGE IS LOCATED ON DIFFERENT ATOMS WITHIN THE MOLECULE.

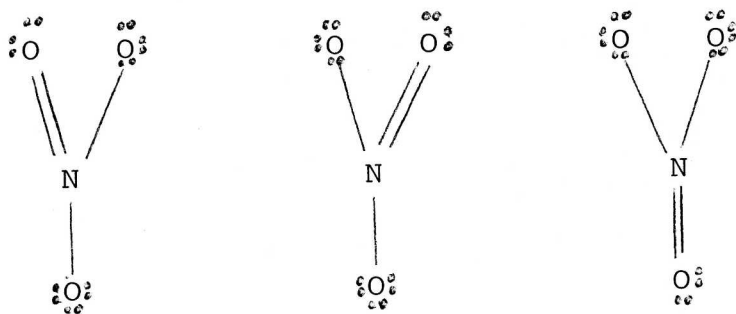

THE EXCITED STATES OF THE MOLECULES ARE SIMILAR RESONATING STATES INVOLVING THESE STRUCTURES.

" THE ABSORPTION OF LIGHT BY THE [MOLECULE].., WITH ITS TRANSITION FROM THE NORMAL STATE TO AN EXCITED STATE OCCURS WITH GREAT EASE "

SEE PREVIOUS CHART.....

THE QUANTUM MECHANICAL MOLECULE CAN BE COMPARED WITH A CLASSICAL OSCILLATOR, INWHICH A POSITIVE CHARGE IS RESONATING THRU A LARGE AMPLITUDE FROM ONE NITROGEN ATOM, ACROSS TO ANOTHER, AND FROM THIS COMPARISON, IT CAN BE PREDICTED THAT THE MOLECULE SHOULD SHOW INTENSE ABSORPTION OF LIGHT SUITABLE WAVELENGTHS.

NOW, THE NITRATE ION, NO_3^- , RESONATES AMONG THE THREE STRUCTURES: SEE CHART..,

THIS MAKING EACH OF THE NITROGEN-OXYGEN BONDS A HYBRID BETWEEN A SINGLE BOND, AND A DOUBLE BOND.

THE GENERAL RULES REGARDING THE RESONANCE OF A MOLECULE AMONG ALTERNATIVE VALENCE BOND STRUCTURES ARE AS FOLLOWS.

EQUIVALENT STRUCTURES CONTRIBUTE EQUALLY TO THE NORMAL STATE OF THE MOLECULE RESONATING. THE MORE STABLE STRUCTURES IN GENERAL MAKE LARGER CONTRIBUTIONS TO THE NORMAL STATE., WHERE LESSER STRUCTURES MAKE SMALLER CONTRIBUTIONS.

THE ELECTRONIC STATE OF THE RESONATING MOLECULE APPLIES TO THE DEFINITE CONFIGURATION OF THE ATOMIC NUCLEI. THE STRAIN INVOLVED IN THIS CHANGE IN CONFIGURATION IN SOME CASES MAKES STRUCTURES UNIMPORTANT.

ALL OF THE STRUCTURES WHICH CONTRIBUTE TO A RESONANCE HYBRID STRUCTURE MUST HAVE THE SAME NUMBER OF UNPAIRED ELECTRONS. SIGNIFICANT RESONANCE DOES NOT OCCURE, FOR EXAMPLE, BETWEEN A STRUCTURE WITH NO UNPAIRED ELECTRONS [SINGLE STATE], AND A STRUCTURE WITH TWO UNPAIRED ELECTRONS [TRIPLE STATE].

" L. PAULING, THE NATURE OF CHEMICAL BOND AND THE STRUCTURE OF MOLECULES AND CRYSTALS 2ND ED., 1940 "

" G.W. WHELAND, THE THEORY OF RESONANCE AND ITS APPLICATION TO ORGANIC CHEMISTRY 1944 "

NOW THE TERM RESONANCE WAS FIRST APPLIED BECAUSE OF THE APPARENT ANALOGY BETWEEN ACCOUSTICAL OR ELECTRICAL RESONANCE AND THE SELECTIVE ABSORPTION OR EMISSIONS OF CERTAIN LIGHT FREQUENCIES BY THESE MICROSCOPIC SYSTEMS.

SINCE THE ENERGY IS PROPORTIONAL TO THE FREQUENCY, THE MICROSCOPIC SYSTEM CAN ONLY ABSORB OR EMIT PARTICULAR SELECTED AMOUNTS OF ENERGY, WHICH CARRY IT TO THE NORMAL STATE TO THE EXCITED STATE, OR FROM ONE STATE TO THE OTHER, OR EVEN TO THE INTERNAL ENERGY (POTENTIAL) TO ANOTHER,.

THIS HOLDS WHETHER THE ENERGY IS A RADIANT ENERGY IN A PARTIAL OF RADIATION OR THE KINETIC ENERGY OF MOTION IN A COLLIDING PARTIAL OF MATTER WHICH HITS THE MICROSCOPIC SYSTEM.

THEREFORE: THE WEIGHT OF THE MOLECULE WILL BE EQUIVALENT TO THE ENERGY IT HAS ABSORBED FROM THE LIGHT. WHEREAS; THE FREQUENCY FROM WHICH THE MOLECULE RESONATES WILL BE EQUIVALENT TO ITS ENERGY

SO THE CONCEPT OF MOLECULAR COMPRESSION WILL BE TO INCREASE THE MASS OF THE MOLECULE BY KEEPING THE EMISSIONS FROM DISCHARGING FROM THE TEMPLATE UNTIL ENERGY AND FREQUENCY CAN BE INDUCED INTO THE MOLECULE EQUIVALENT TO THE MOLECULES ATOMIC NUCLEI.

THIS PROCESS MUST BE DONE WHILE THE MOLECULE IS IN THE EXCITED STATE, BUT LIKEWISE COMPRESSED SLOWLY AS NOT TO BURN OUT THE INFORMATION ON THE MOLECULES TEMPLATE.

SO I HAVE CONCLUDED THAT THE ENERGY MUST BE MULTIPLIED BY THE AREA OF MOLECULAR MASS TO REDUCE EMISSIONS RESISTANCE THUS PRODUCING PRESSURE EQUIVALENT TO THE RESONATING FREQUENCIES OF THE MOLECULES TEMPLATE.

WHEREAS THE EQUATION FOR MOLECULAR COMPRESSION IS AS FOLLOWS:

1. $C^2 = ME^3$ [MOLECULAR COMPRESSION² WILL BE EQUIVALENT TO THE MASS OF ENERGY³ OF THE ATOMIC NUCLEI]

MOLECULAR ENCRYPTION

THE CELL UNDOUBTEDLY IS THE BASIC BUILDING BLOCKS OF HUMAN LIFE. WHEREIN; NO LAW CAN BE ESTABLISHED UNLESS IT IS FIRST PERFORMED. THAT IS TO SAY, THAT WE CAN LEARN OF THE INTELLIGENCE OF WHAT CREATED LIFE THROUGH BASIC DEDUCTIONS OF THE PERFORMANCE OF THE NATURAL LAW.

CELLULAR MECHANICS OBSERVED BY MY STUDIES HAS LED ME TO DEVELOPE A NEW D.N.A. MODEL THAT SUPPORTS THIS THEORY.

TO BEGIN; MOLECULES MAKE UP THE STRUCTURE OF EACH GENE, WHILE THE GENES ARE FOUND IN THE CHROMOSOMES. THE CHROMOSOMES HOWEVER; ARE FOUND WITHIN THE NUCLEUS, OR BRAIN OF THE CELL.

NOW, CHROMOSOMES WILL INTERWEAVE TO CREATE A UNIT KNOWN AS CHROMATIC. WHEN THIS CHROMATIC DIVIDES WITHIN THE NUCLEUS, IT WILL CAUSE THE CELL TO DIVIDE INTO TWO BODIES CALLED DAUGHTER CELL.

THIS DESCRIPTION IS REFERED TO BY ME AS THE [PERFORMANCE]. I HAVE MAINTAINED THAT THE MOLECULES WILL HAVE THE GREATEST INFLUENCES ON THE BEHAVIOR OF THE CHROMOSOMES REPRODUCTION. WHERE LIKEWISE, THE CELLULAR REPRODUCTION CAN ALSO BE MANIPULATED BY FORIEGN ENTITIES OR DESIGNER MOLECULES.

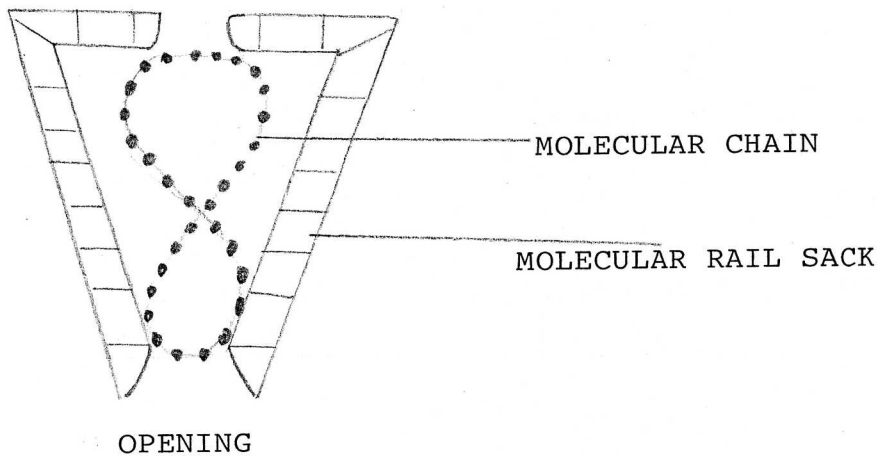

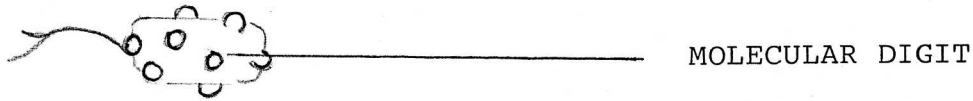

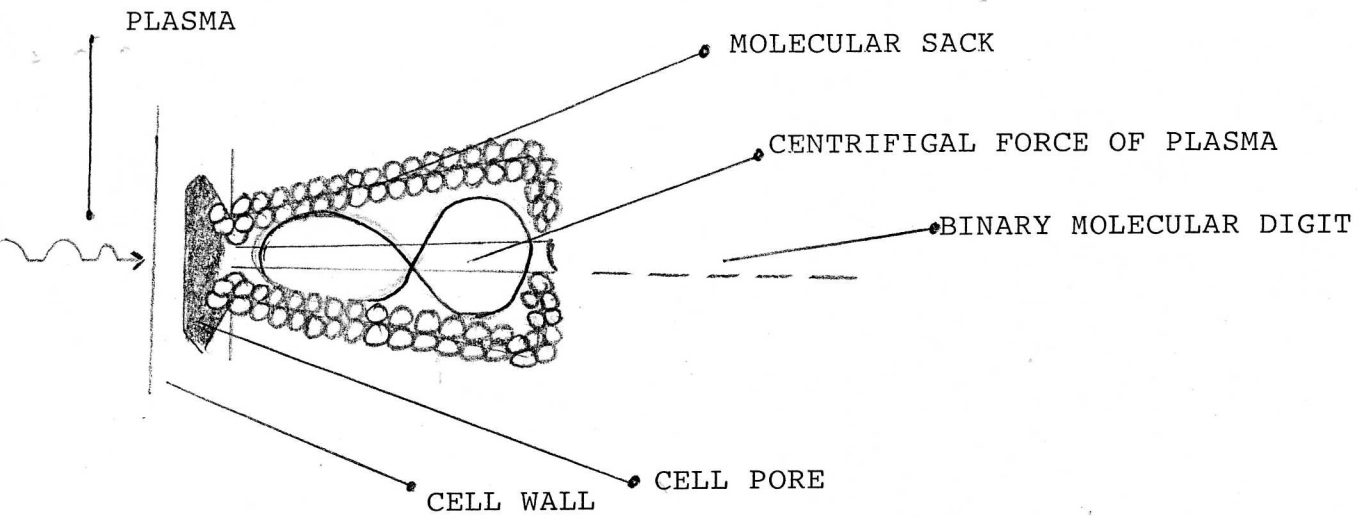

NOW, SCIENCE HAS STATED THAT CELLULAR RESPIRATION IS THE MAIN FUNCTION WHICH PRODUCES ENERGY FOR THE CELLS DEVELOPEMENT.

BUT I CONTEND WITH THIS OBSERVATION BECAUSE IT DOES NOT SUPPORT THE INTELLIGENCE FACTOR ENTIRLY, IN THAT THE MOLECULE WILL HAVE A GREATER INFLUENCE ON WHAT THE NUCLEI ABSORBES AND TRANSFORMS INTO ENERGY.

DR. JAMES WATSON AND DR. FRANCIS CRICK DEVELOPED THE DOUBLE HELIX MODEL TO DEFINE THE MECHANICS OF MOLECULAR ENCRYPTION.

I DISAGREE WITH THE MODELS CONCEPT, ALTHOUGH I DO BELIEVE THAT MOLECULAR COMBINATIONS ARE TRUE.

SO WHAT I DID TO DISCOVER THE INTELLIGENCE FACTOR OF CELLULAR REPRODUCTION WAS TO DEDUCT THE CELLS INTERIOR AND COMPARE EACH COMPONANT WITHIN IT TO OUR OWN ORGAN SYSTEM. WHEN I DID THIS I HAD DISCOVERED THAT THE HUMAN CELL INDEED ACTED AS A TEMPLATE BY WHICH OUR BODIES HAD DEVELOPED.

THE CELL ARE KNOWN TO HAVE MEMBRANES WHICH RESEMBLE THE STRUCTURE OF OUR SKIN, WHEREAS THE CELL PORES ARE LIKEWISE AS EFFECIANT AS THE PORES IN OUR OWN SKIN. NOW, THE CELL ALSO HAS CELL INTRUSIONS WHICH FOR OTHER TERMS COULD BE ASSOCIATED TO THE ORIFACES FOUND IN THE HUMAN BODY. NEXT, THERE IS FOUND THE MITOCHONDRIAN WHICH CONVERTS FOOD INTO ENERGY WHICH I HAVE ASSOCIATED TO THE SUGARS PRODUCED IN THE PANCREASE. THEN THERE IS THE LYSOSOME THAT DIGESTS FOOD WHICH I HAVE ALSO ASSOCIATED TO THE HUMAN STOMACHE

NEXT, THE GOLGI APPERATUS REDISTRIBUTES PROTIENS AS DOES THE ENTESTINES REDISTRUBUTES ENRGY FROM DIGESTED FOODS., WHEREAS; THE PLASME IN THE CELLS ACTS IN ACCORDANCE TO THE FUNCTIONS OF THE KIDNEYS WHERE THE WATER IS FILTERED OUT AND RECYCLED. AND FINALLY, THE NUCLEUS, IS THE BRAIN OF THE CELL AS OUR BRAIN MAINTAINS THE SIMILAR FUNCTIONS.

THIS WILL LEAVE US TO DETERMINE THAT TWO FUNCTIONS ARE ACTUALLY UNACCOUED FOR. THAT BEING THE HEART AND THE LIVER.

SO IF I DESIRE TO BUILD A MODEL WHICH DESCRIBES THE MECHANICS BY WHICH INFORMATION IS PRODUCED WITHIN THE HUMAN CELL, THEN I WOULD HAVE TO BASE IT ON THE FUNCTIONS OF THE HEART AND LIVER.

NOW AGAIN, THE NUCLEUS MUST HAVE A SOURCE OF VIABLE INFORMATION WHICH REMAINS AS A CONSTANT. AND THIS INFORMATION MUST BE PRODUCED. AND THE DOUBLE HELIX MODEL DOES NOT SHOW THE PRODUCTION OF INFORMATION, BUT ONLY THE ASSIMILATION STRUCTURE OF INFORMATION EXCLUDING THEN THE TRUE PROCESS.

SO TO BEGIN:

NEW D.N.A. MODEL CONCEPT

THE D.N.A. MODEL SHOULD APPEAR AS A TWO PART FUNCTIONAL SYSTEM. ONE PART TO INDUCE THE INFORMATION, THE SECOND TO FILTER THE INFORMATION.

THE HEART FUNCTION OF THIS MODEL SHOULD HAVE AN OUTER LAYER MADE UP OF PLASMA NETWORKED WITH HYDROGEN, OXYGEN, PHOSPHORUS, NITROGEN AND CARBON BASES.

THE MODEL SHOULD APPEAR OBLONG WITH AN OPENING AT EITHER END OF ITS FRAME TO APPROPRIATE THE MECHANICS OF THE MODEL.

WITHIN THE CHAMBER, THERE SHOULD BE FOUND A CHAIN LINK LIKE PHENOMENA MADE UP OF THE ADENINE AND THYMINE, GUANINE AND CYTOSINE CHEMICALS. THESE COMBINATIONS WOULD THEN BE BONDED BY THE HYDROGEN AND NITROGEN CARBON MOLECULES.

THE CHAIN LINK WOULD RESEMBLE A FIGURE EIGHT LAID FLAT WITHIN THE CHAMBER UNTIL TO THE CHAMBER BEGINS ITS PROCESS.

FUNTIONING OF THE MODEL

THE SACK WILL BE FLATTEND UNTIL IT COULD REACH THE PORE OF THE CELL. WHEN IT HAS ENTERED AT THE BASE OF THE PORE, IT WILL ATTACH ITS SELF TO THE INNER LINNING BY GLUEING ITS SELF TO THE LINING OF THE CELL PORES INTERIOR.

NOW, THE SACK WILL INFLATE ITS HYDROGEN AND OXYGEN MOLECULES AT THE FOOT OF ITS BODY ONCE IT HAS GLUED ITS SELF IN POSITION. WHEN THESE MOLECULES INFLATE, IT WILL CAUSE THE PORE TO OPEN WIDE ENOUGH THAT BLOOD WILL BEGIN TO FLOW IN.

ONCE THE SACK BEGINS TO FILL WITH BLOOD, THE BODY OF THE MODEL WILL BEGIN TO EXPAND INTO A TUBE LIKE SHAPE. THEN ANOTHER PHENOMENA WILL OCCURE. THE HEAT FROM THE BLOOD WILL CAUSE THE CHIAN TO TO BECOME AGITATED WHERE IT WOULD BEGIN TO ROTATE WITHIN THE SACK.

THIS PHENOMENA WILL INDUCE A CENTRIFIGAL FORCE WITHIN THE CHAMBER CAUSING THE BLOOD TO FORM INTO A WORM SHAPE CHARACTER.

NOW, WHEN THE CHAIN BEGINS ROTATING, THE END OF THE CHAMBER WILL BEGIN TO OPEN AND CLOSE CAUSING A VACUUM SUCTION WHICH WILL PROPELL THE BLOOD THROUGH THE CHAMBER.

NEXT, THE CHAINS ROTATION WILL BEGIN SCRAPING OFF MOLECULES THAT ARE ATTACHED TO THE CHAMBERS WALLS. THESE MOLECULES WILL THEN START ATTACHING THEMSELVES TO THE BLOOD SPHIRICAL BEING PROJECTED THROUGH THE CHAMBER.

NOW, WHEN THE OPPOSITE END OF THE CHAMBER OPENS, IT WILL ALLOW FOR A CERTAIN AMOUNT OF BLOOD ENCRYPTED WITH THE MOLECULAR ENCODING TO PASS THROUGH. BUT AS THE MOUTH CLOSES, THE BLOOD WILL BE CUT OF INTO A SECTION.

THIS PROCESS WILL CONTINUE UNTILL THE SACK WALL FAILS DUE TO THE AMOUNT OF MOLECULES SCRAPED FROM THE WALL, WHICH SHOULD THEN DESTABLIZE THE ENTIRE SACK.

ALL THE SECTIONS HOWEVER; WILL BE ENCRYPTED WITH BINARY BITS OF MOLECULAR SEGMENTS WHICH WILL MAKE THEIR WAY UNTO THE NUCLEUS. THEN THESE SEGMENTS WILL TRY TO PENETRATE THE NUCLEUS AS DOES A SPERM CELL WHEN IT TRIES TO INFILTRATE AN EGG.

THE RESULT IS, THAT ALL THE SEGMENTS WHICH ARE COMPATIBLE TO THE NUCLEUS AND THE INFORMATION IT PROCESSES, WILL BECOME THE DATA BY WHICH THE ENTIRE CELL FUNCTIONS. WHILE THE REST OF THE INFORMATION FROM THE SEGMENTS THAT WETRE NOT COMPATIBLE, WOULD BECOME FOOD PROCESSED FOR THE CELL TO DEVOUR.

THEREFOR, ACCORDING TO THE VALENCE THEORY, FREQUENCIES SHOULD HAVE A PROFOUND EFFECT ON THE CELL, AND HOW THE NUCLEUS ASCERTAINS THE INFORMATION. WHICH MEANS THAT ONE CAN CAUSE MOLECULES TO COMPRESS WITHIN THE CELLS MAKING THEM STRONGER THAN BEFORE, WHICH WOULD CAUSE THE IMPERIAL CELL EFFECT, THAT IS TO SAY; THAT CANCER CELLS WILL NO LONGER BE EFFICIENT ENOUGH TO DESTROY THE WHITE BLOOD CELLS, BUT INSTEAD WOULD BE MADE LAME FROM THE WHITE BLOOD CELLS FREQUENCY WHICH WOUL RESINATE FROM IT.

SO IN CONCLUSION, I HAVE SHOWN THAT THE D.N.A. MODEL SHOULD HAVE A MECHANICAL DESCRIPTION IN ORDER TO PROPERLY DEFINE THE PRODUCTION OF LIFE MANIFESTED THROUGH THE HUMAN CELL.

WHEREAS; I HAVE ALSO SHOWN THAT MOLECULAR COMPRESSION WILL LIKEWISE HAVE A PROFOUND EFFECT ON STRENGTHENING THE HUMAN CELL, IN THAT, THE CELL WOULD BE INCREASED IN SIZE AND AREA THUS LIKEWISE INCREASING ITS STRENGTH BECAUSE OF MOLECULAR RESINATION.

NOW, IF MY LIGHT THEORY AND MOLECULAR HYBRID THEORY WERE TO BE ADAPTED TO THIS THEORETICAL CONCEPT OF THE MODEL, THEN IT WOULD BE LIKELY THAT WE COULD ASCERTAIN THE ABILITY TO CREATE A HUMAN CELL THAT IS CAPABLE OF CONSUMING CANCER CELLS AND OTHER FOREIGN BACTERIA AND VIRUSES.
